PROBLEM STATEMENT

In today's digital era, traditional resumes alone are not enough to showcase skills and project effectively. Many students and professionals lack a structured online presence to highlight their work. A digital portfolio provides an interactive and accessible platform to present achievement, skills and experience.

PROJECT OVERVIEW

- Brief summary of my project What my portfolio contains (about me, projects, skills, contact). Main idea: showcase personal achievement, skills, and projects.

WHO ARE THE END USERS?

- Students (academic projects, resumes). Job seekers (to share with recruiters). Freelancers (to show clients). Professionals (to highlight experience and achievement).

TOOLS AND TECHNIQUES

- HTML: structure (pages, sections). CSS: styling (colours, layouts, responsiveness). JavaScript: interactivity (navigation menu, animation, form validation). Mention code editor (VS code) or CODEPEN and hosting platform (GitHub pages).

PORTFOLIO DESIGN AND LAYOUT

- Sections included:
 - Home/ about
 - mPreo jec
ts
 - Skills
 - Contact
 - Responsive layout
(mobile+desktopview).

FEATURES AND FUNCTIONALITY

- Navigation bar with smooth scrolling.
Project showcase with images/details.
Interactive elements (hover effects,
animation). Contact form (with
validation).
- Responsive design for all
devices.

RESULT AND SCREENSHOT

- Screenshots of each section Before vs after (plain HTML: with CSS&JS).

A screenshot of a code editor interface showing the CSS styles for a project card. The interface includes tabs for HTML, CSS, JS, and Result, along with settings and dropdown icons. The CSS code is as follows:

```
.project-card {  
    background: white;  
    border-radius: 15px;  
    overflow: hidden;  
  
    box-shadow: 0 10px 20px rgba(255, 43, 142, 0.1);  
  
    transition: all 0.3s ease;  
    opacity: 0;  
  
    transform: translateY(50px);  
}
```
